VIPER'S DAUGHTER

MICHELLE PAVER

For two summers Torak and Renn have been living in the Forest with their faithful pack-brother, Wolf. But their happiness is shattered when Renn realizes Torak is in danger – and she is the threat.

When she mysteriously disappears, Torak and Wolf brave the Far North to find her. At the mercy of the Sea Mother and haunted by ravenous ice bears, their quest leads them to the Edge of the Word. There they must face an enemy more evil than any they've encountered.

Viper's Daughter plunges you back into the Stone-Age world of Torak, Renn and Wolf: a world of demons, Hidden People and exhilarating adventure which has entranced millions of readers.

Mammoth

A Mammoth Moment

Would you survive meeting a mammoth? How much do you know about them? Answer true or false to test yourself.

True or False:

There was only one type of mammoth

Mammoths don't eat meat

Mammoths live for up to 80 years

Mammoths went extinct 10,000 years ago

You can tell a mammoth's age by its tusks

Mammoths weigh the same as a double-decker bus

Mammoths were three times the size of an elephant

Torak and Wolf's Wild World

When Wolf looks around he sees his pack-brother Tall Tailless putting more wood on the Bright Beast-that-Bites-Hot. He sees his pack-sister sitting by the Fast Wet checking her Long Claws-that-Fly through the Up. Wolf loves these days with his pack at their den, his mate Darkfur, his cubs, his pack-brother and pack-sister all living together.

Below are things you can find in Torak and Wolf's wild world. Have you seen any of these before? See how many of these you can find on your next nature walk.

Pinecones

Grow on evergreen pines.

Protect the pine tree seeds.

Drop from the trees every year to help grow new pines.

Blackberries

Grow on bramble bushes.

They are a fruit and turn purple when ripe.

They are easy to find as summer turns to autumn.

Mushrooms

Unlike most plants, mushrooms don't need sunlight to grow.

They are made up of 90% water.

Some are deadly and poisonous.

Acorns

Grow on oak trees.

They are a type of nut.

Squirrels, woodpeckers, boars and bears all eat them.

Sycamore seeds

Sycamore trees can live for 400 years.

They are known for their wing-like seeds.

When they fall to the ground they spin as if they are flying.

Holly

Grows as bushes or trees.

Leaves have sharp, spiky edges.

Survives through winter because the leaves are thick and waxy.

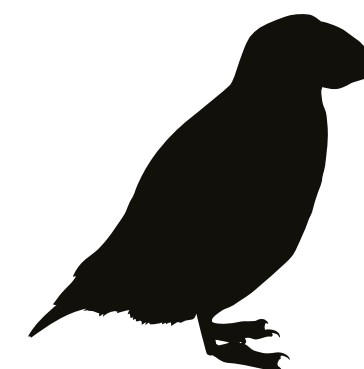

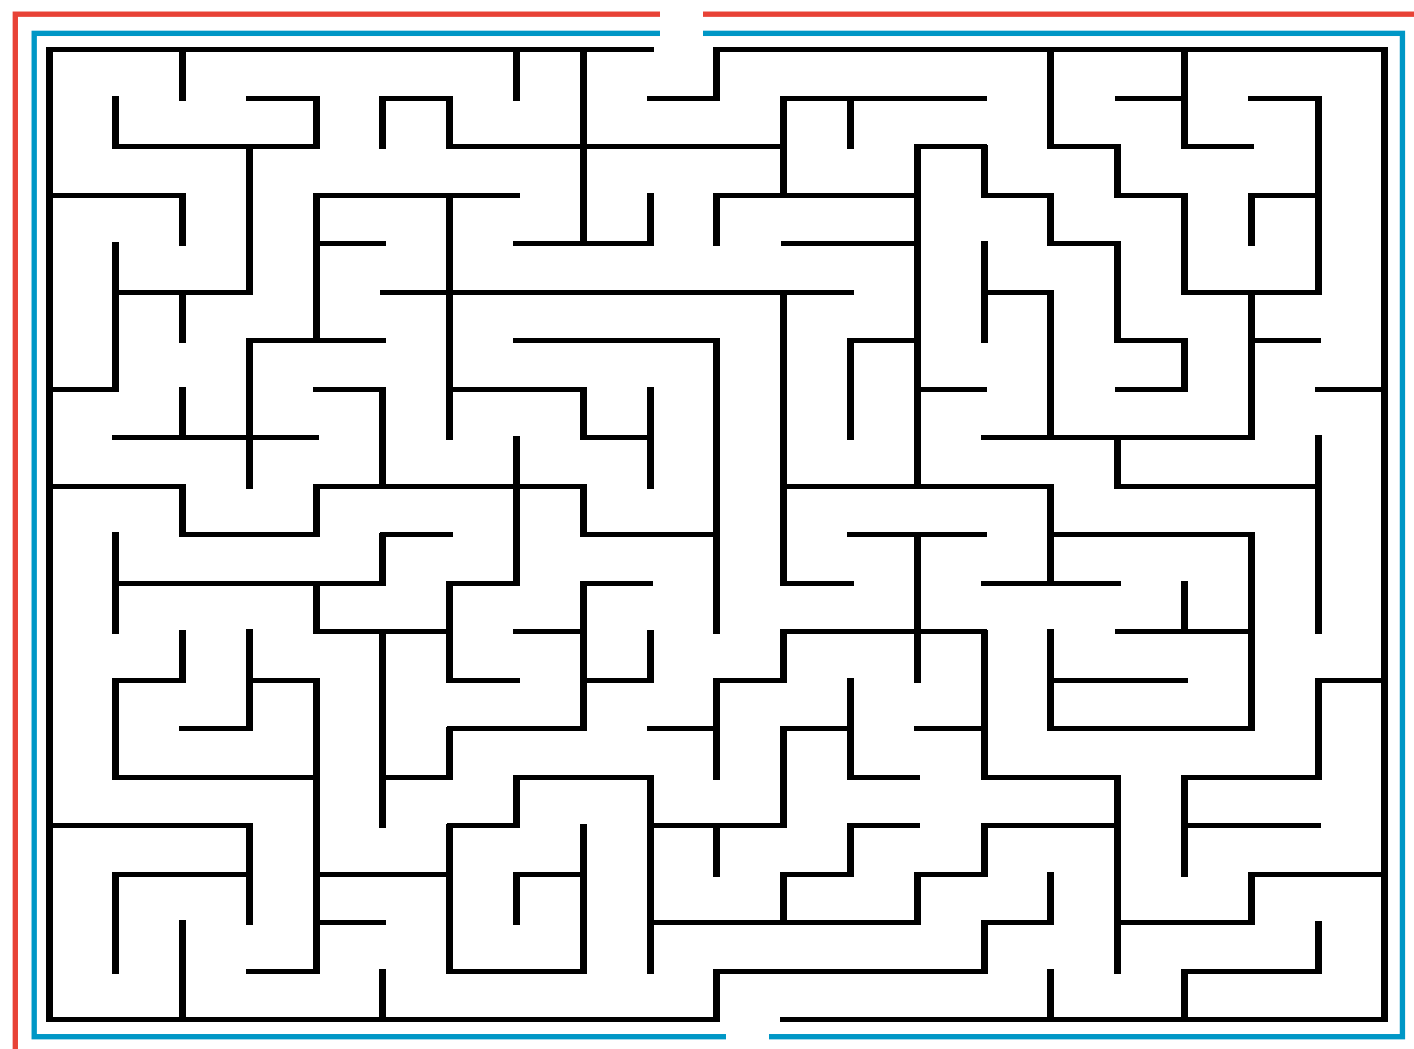

Maze through the Far North

Help Torak through the maze to find Renn.

Birds of the Far North

Can you identify some of the birds in Torak's world?

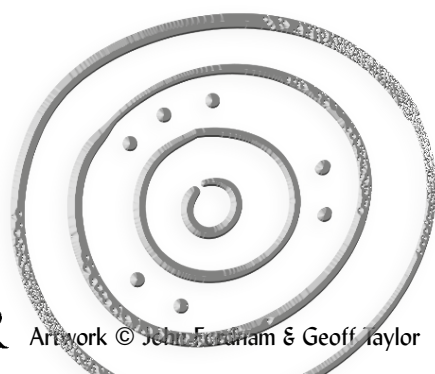

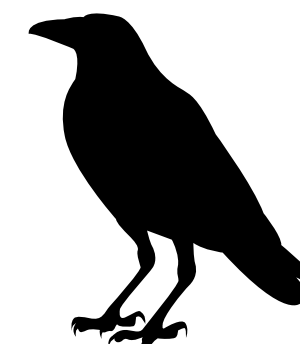

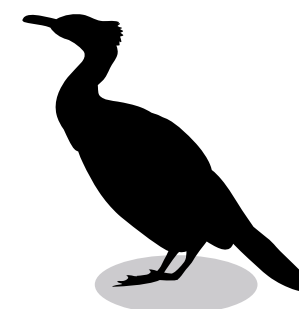

→ Owl

→ Raven

→ Sea Eagle

→ Cormorant

→ Puffin

Stone Age Animal Trumps

Challenge your friend to a game of top trumps!
Colour in and cut out the cards.

How to play:

To begin the game, shuffle the cards and deal them to each player face down.

One player starts by looking at their top card and reading out a category.
For e.g. 'Height 1.5m'. The other player then reads out the same category
from their top card.

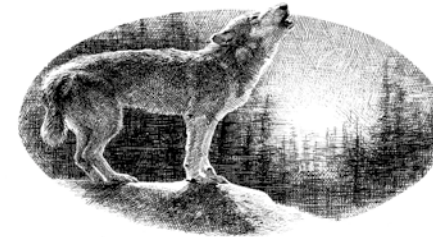

The player with the highest value wins the round. That player collects the cards
from that round and adds them back into their hand at the bottom of the pile.

The player who wins the round goes next. It is their turn to choose a statistic
from the next card.

If a category is called out and both players have the same number, the cards
are put in the middle. Whoever wins the next round collects the cards in the
middle. When one player holds all the cards, they win and the game is over.
